

## **KAMAL CAPETOWN IRON AND STEEL COMPANY (PTY) LTD**

**Job Title: Production Manager**

**Location: Kuils River, Cape Town**

We are seeking an experienced Production Manager to join our manufacturing plant located in Kuils River, Cape Town. The ideal candidate will demonstrate the ability to logically apply and allocate resources to deliver planned outcomes and meet quality objectives. The Production Manager will demonstrate a progressive and pro-active approach to achieving company and production deadlines.

**Key Responsibilities:**

- Employ cost effective operating methods.
- Ensure that all components for the manufacturing process are always prepared and timeously ready for production. This includes the availability of labour, raw materials, and time.
- Implement and adjust processes to ensure that quality standards are met and conformed to by all plant operators.
- Collaboration and co-ordinate efficiently between relevant departments.
- Co-ordinate maintenance with production.
- Ensure compliance to all relevant safety procedures and standards.
- Investigate and solve problems, write reports, and make recommendations.
- Prepare budget for consumables.
- Write and revise works procedures for approval by Plant Manager.
- Do monthly reporting to improve efficiency.
- Enforce and maintain the adherence of all staff to the health and safety protocols and statutory requirements.

**Requirements:**

- Diploma in Mechanical / Metallurgy in steel melting through arc furnace.
- 5-7 years' production experience within a Steel Manufacturing Plant (Meltshop).
- Good project management skills and technical/mechanical insight.
- Computer literate.
- Good Occupational Health and Safety Skills – be familiar with OHSA.
- Understanding of moving equipment (Overhead Cranes).
- Good communication skills.
- Ability to work independently and as part of a team.
